RULATALOGEN 2021

Because of the limitation of printing technology, colours of each product can slightly differ from the colours presented on the photographs. The measurements are approximate and cannot be the reason to complain. The manufacturer can change technical parameters of the products and is not responsible for possible printing mistakes. According to Civil Code catalogue is not the offer. All the data enclosed in that catalogue are valid in the month of its printing (January 2021).

FANTASTIC 5

5 NOVELTIES EVERY MONTH ALL YEAR ROUND!

The only thing that is constant is change

- Heraclite of Ephesus

WHAT IS THIS ABOUT?

Life and business is moving to the Internet. We meet the needs of our customers, we also try to take care of sustainable development and reduce CO2 emissions. Following this premise, we have decided that instead of two seasonal catalogs from 2021 we will print one all year round. However, in order to fill the void and there was no shortage of novelties, we have introduced a series of regular, monthly 5 product releases - FANTASTIC 5.

HOW IT WORKS?

At the beginning of each month (except for February - this month our catalog for 2021 comes out) we will send you an email with a promotional video and presentation of new products. Watch our profiles as well in social media, we are preparing there a lot of attractions, and from time to time we'll override a piece of the secret about the next premiere. Stay alert, the next edition is coming!

Follow us and stay up to date!

ACHROMATIC LOGO (without tonal gradiations)

Depending on which marking technique we use.

Logo is unicoloured and obtained colour depends on marked material. In those techniques we don't determine colour of marking.

USED IN FOLLOWING TECHNIQUES:

engraving, debossing

COLOUR

LOGO

(without tonal gradiations)

Logo can be made in 1 to 4 separate colours (standard) or more if required. Number of colours depends on product specification and chosen marking technique. In our work we use PANTONE system.

USED IN FOLLOWING TECHNIQUES:

pad printing, screen printing, screen printing heat transfer, embroidery

COLOUR

LOGO

(with tonal gradiations)

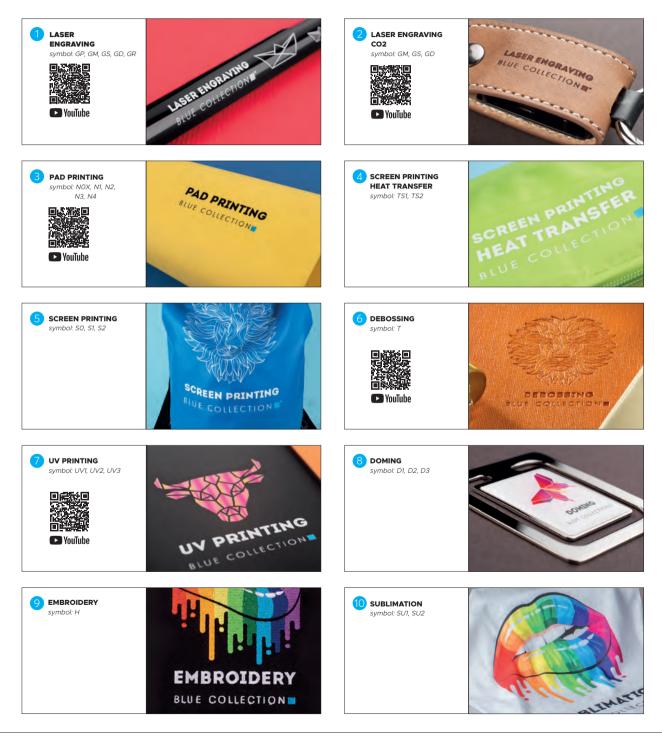

Marking is fully coloured, number of colours is unlimited. Colours are determined by CMYK system.

USED IN FOLLOWING TECHNIQUES:

direct UV printing, sublimation, solvent flex printing, doming

MARKING TECHNIQUE

SYMBOLS

LEGEND

GREEN ICONS

Environmentally friendly – products wholly or partially (min. 50%) made of natural materials. We also use this icon to mark products powered by solar energy and promoting ecological lifestyle.

Replacement of single-use – products which constitute alternatives to single-use products. Thanks to their reusability, they do not create a demand for new products, and thus reduce the consumption of resources and energy needed for their production.

Eco-friendly packaging – Collective or singlelayer individual ones, plastic-free cardboard packaging enabling easy waste separation.

rPET – products made from recycled plastic bottles.

COLOUR CODES

CLOSER TO NATURE

Selection of products made of natural materials such as bamboo, cork and wood.

12

THE PRODUCTS YOU USE FOR PROMOTION ARE YOUR HALLMARK, PRESENTING INFORMATION ABOUT YOUR COMPANY AND ITS VALUES. BY MAKING SUSTAINABLE CHOICES YOU SHOW THAT YOU CARE ABOUT THE FUTURE OF OUR PLANET, AND THIS WILL HELP YOU STAND OUT AS A CARING AND CONSCIOUS COMPANY.

OLOV pencil is a gadget which tree lovers will absolutely love. No wood was used to make it. Wood was replaced by recycled paper. This gadget shows that caring for a greener planet begins with the smallest steps in our daily routine.

The MAMBOO writing set consists of a pen and an automatic pencil, packed in a brown eco-friendly cardboard box. The body of both pen and pencil is made of natural bamboo

3 19666 / Paper ball pen POLI / p. 89

POLI ballpoint pen is a popular gadget made of environmentally friendly materials. The body is made of colourful recycled paper and the clip and tips are made of fully recycled PLA plastic from corn. This is a real treat for those who do not want to increase environmental pollution when using the gadgets.

4 19652 / Ball pen REVI / p. 87

REVI pen is designed for all those who love the idea of reducing plastic waste. Traditional plastic has been replaced with a material manufactured from 50% natural straw.

ERPET is a pen for supporters of maximum re-use of consumed raw materials. The pen is made entirely of recycled PET.

FOLL pen was made for everyone who support the idea of using natural resources. The barrel of this pen is made of natural bamboo and the clip and tips are made of 50% natural straw. A leaf-shaped clip also refers to the idea of environmental protection.

The KORTE pen refers with its looks to the idea of recycling. The barrel is made of natural cork and the button is made of wood.

The PERO notebook was created for lovers of simple forms and ecological solutions. Cover made of paper has been equipped with a zipped pocket. The A5 format contains 80 lined sheets in ecru colour.

9 19804 / box with colour pencils KRASI / p. 143

Wooden pencil case equipped with 12 various colour pencils, ruler and an eraser.

17857 / Coffee notebook KOPI A5 / p. 155

KOPI notebook is the perfect idea for an eco-friendly gift. The cover of the notebook and the pen are made of plastic mixed in 40% with coffee beans, allowing for much less plastic to be used. It has 70 line sheets made of brown, recycled paper. The set includes a ballpoint pen with blue refill. The whole thing is packed in a nice brown cardboard box which perfectly meets the ecological trend.

CLOSER TO NATURE

1 03089 / Desk clock with organizer / p. 34

Ecological BAMBOOO clock with a toolbox will meet the expectations of people looking for fashionable decorations and taking care of the environment. The bamboo casing harmonizes perfectly with the black clock. White LED light on the display. It has a container for pens and clock with the following functions: calendar, alarm and thermometer.

12 03090 / Wall clock NATURAL / p. 41

If you like ecological materials, NATURAL wall clock is a product for you! Made of MDF board, it will fit perfectly into modern interiors, and its colour will only bring you closer to nature.

13 44090 / USB flash drive CAIRO 16 GB / p.

CAIRO memory is an ideal proposal for enthusiasts of ecological solutions. The housing is made entirely of cardboard

14 09114 / Wireless charger PARO / p. 64

The PARO charger is a great gift for a couple! It has two wireless charging stations. It is finished with natural bamboo, thanks to which it can become also a decoration for your home. It is supplied via a cutting-edge type C USB port which is replacing the older micro USB port gradually. This is a gadget of the future which is bound to be loved by many fans of new technology and natural materials.

The strong KYOTO wireless charger is made entirely of natural bamboo and attracts the eye right away, helping you to forget the annoying cables. Wireless charging technology is becoming more and more common on mobile devices, thus such a gadget is a great gift idea. In this version it is addressed also to environmentally conscious persons.

(6) 09112 / Wireless speaker / p. 21

TROPIC is a small and smart speaker finished with natural bamboo. It can be used as a handsfree system. Music can be played via Bluetooth (version 5.0) or a micro SD card.

Traditional numbers on the clock face have been replaced with sticky memo cards (25 pcs/each colour), which allow us to put information about important meetings directly on the clock face or use them in a traditional way - to mark important documents. Everything is made of thick cardboard in a natural colour.

The JUL cotton bag for storing bread helps to keep it fresh for longer. High-quality cotton with a weight of 120 gsm and the natural beige

NETI shopping bag is made of heavy weight cotton canvas(280 g/m2). The bag has practical long handle which allows you to wear it slung over one shoulder. The combination of two material types gives an impressive and fashionable look.

16525 / Mesh bags set RPET / p. 278

A set of bags that is a shopping must-have nowadays. Made of recycled polyesterin in the idea of "less waste". The set consists of 2 larger bags (size 320 x 340 mm) and one smaller (size 175 x 150 mm) which is also a pouch which can be used to conveniently store the set. The small pouch is made of smooth polyester on one side.

22 16515 / Food container TRITI / p. 231

The TRITI container made of wheat plastic consists of two compartments, one larger and the other smaller. Additionally, it is equipped with a spoon, fork and chopsticks, which not only saves space, but you also have always something to eat with. The container has handles for easy handling. It does not absorb the smells of food.

16212 / Sport bottle with carbon filter / p. 238

The 700 ml KIVI water bottle has a very convenient retractable mouthpiece with a straw. Its biggest advantage is the interchangeable carbon filter, thanks to which we can fill it even with tap water. The filter can also be removed when you want to pour e.g. juice into the bottle.

24 16211 / Glass bottle VIDO 560 ml / p. 235

It is made of high-quality borosilicate glass resistant to heat. The cap is finished with natural bamboo and features a handy string making a holder.

The porcelain mug SOFT is perfect replacement for a disposable cup for tea or coffee. It has a lid that prevents the drink from spilling and makes drinking easier. It is a great choice as a mug on the way to work. The cork bottom is nice in touch and acts as a pad.

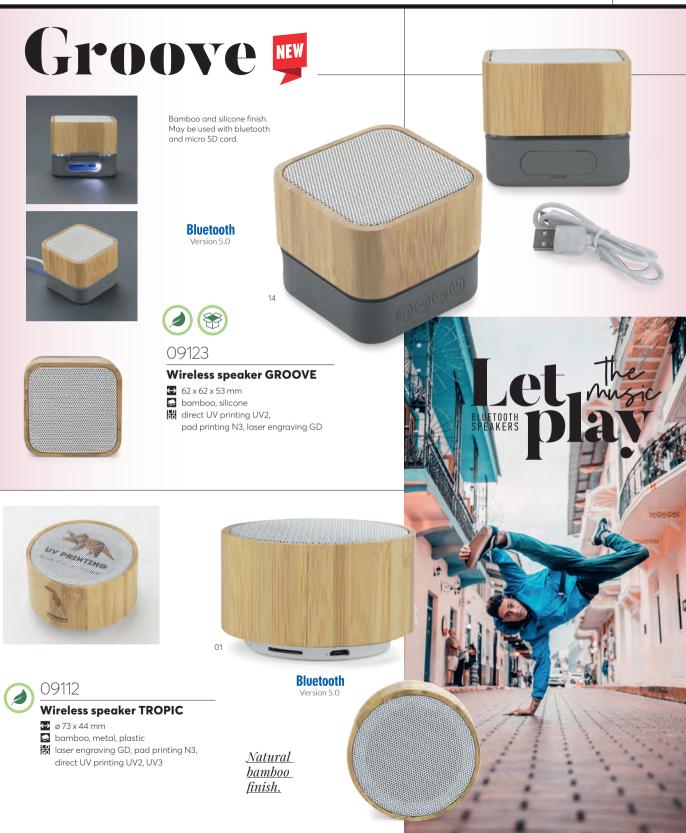

These are only a few selected examples of products inspired by nature. You will find many more - follow the green icons!

Bluetooth speaker

Take your music with you wherever you are!

More than one function

Most of our loudspeakers have a built-in microphone (see the table below) this allows you to use them as a hands-free set for your phone to answer and make calls.

No installation

Unlike other complicated devices, Bluetooth speakers do not require installation, all you have to do is place them within ten meters of the source device and connect them via Bluetooth. It's simple.

DIFFERENT OPTIONS OF MUSIC TRANSFER:

USB

A Bluetooth speaker is a definition of a mobile gift. Depending on the situation, you can choose a small size in the form of a phone pendant connected to a mini jack port of your phone or choose a higher speaker power in a sturdy casing.

Size adjusted to your needs

DID YOU KNOW...

At the beginning of the 18th century, the Swedish naturalist Carl Linnaeus planted the first flower clock in the Botanical Garden in Uppsala, Sweden. He created a round flower bed divided into 12 parts. The whole thing was based on the characteristic hours of opening and closing of petals for different types of flowers, so you could determine the time of day just by looking at the garden. If you do not have this type of garden, wall clocks also work well.

Because of big digits the current time can be easily read and the whole clock gains trendy look.

complains about

short-lasting

batteries

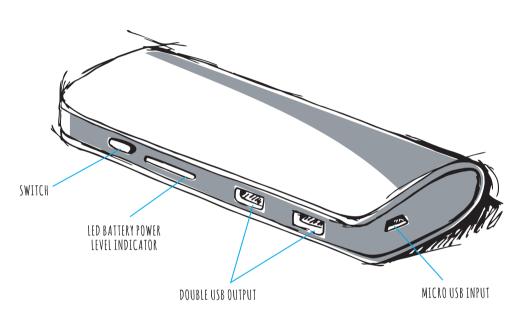

Every new generation of mobile devices requires more energy

Power bank

Reliable power source Anytime, anywhere

Important to know!

It is worth remembering that during charging, inevitable energy losses occur, which may reduce the real power bank efficiency to as much as 75%. This is a completely natural phenomenon and should be taken into account when selecting the capacity of the power bank.

mAh miliampere-hour

mAh is a miliampere-hour, the unit for batteries capacity. The value in mAh means how many energy can be storaged. Power banks with higher mAh capacity can recharge more devices.

USB ports the more, the better

Power bank may have more than one USB output, which allows you to charge multiple devices simultaneously. Each output may have different amperage dedicated for different mobile devices.

PAY ATTENTION!

Device's capacity

Shape and dimensions

Amperage – time of recharging

Power banks come with 12 months warranty and CE certificate.

infoGRAPHIC_

Durability

You don't have to connect or disconnect your devices every time, so you can avoid damaging the USB connector.

Place the phone on a dedicated charger (induction board) and it will start charging. You can reach for it at any time and leave.

Induction

Charge the phone without connecting it to the charger

Is inductive charging safe for people?

According to information provided by the World Health Organisation, to date scientific evidence does not support the link between symptoms (such as headaches, anxiety and nausea) and exposure to electromagnetic fields. Their occurrence can often be caused by noise or by concerns about the presence of new technologies.

The level of radiation emitted by wireless chargers is much lower than emitted by other household appliances such as microwaves, mobile phones, televisions and vacuum cleaners.

Aesthetics

Original designs make your charger a decorative element as well.

Do not place the charger in close proximity to strong electromagnetic fields such as other induction chargers. The recommended distance should be at least 3 cm.

7x longer lasting than a conventional A-type USB plug

one universal connector to be used on a wide range of devices

easy-to-use plug

USB Type C

Transfer your files in an easier and quicker way, charge your smarfon and notebook.

A new type USB connector shape

USB Type C (also called "USB C") connector is user friendly. There's no up or down orientation so it works regardless of which way you plug it in. Also both ends of the cable feature the same kind of connector. Over the last couple of years, USB Type C has become more available and popular. It's on track to become the industry standard for USB connections in the future, because of several innovations and technological enhancements that make it an exciting advancement in USB technology.

Universality

02

USB type C can be used not only as AC and USB power connector, but also as a headset and HDMI connector.

A USB cable with micro USB and iPhone (Lightning) plugs and USB type C adapter in a convenient case.

Before pens were invented, people used many different tools to write. The first writing instrument was the finger with which a person created symbols in the mud. Later pieces of metal or bone were used. The ancient Greeks and Romans practiced writing on wax tablets with a sharp stylus, while the Egyptians preferred a hollow reed and papyrus.

ENGRAVING COLOUR IS SIMILAR TO THE COLOUR OF THE TIP OF THE PEN.

A suitable pen is an important component of a professional image and of building a personal brand. The cool, smooth metal body, matt metallic or glossy finishes add a touch of seriousness and elegance. Metal pens are perfect as gifts at trade fairs, corporate events and parties.

DID YOU KNOW ...

The pen prototype was invented in 1938 by a Hungarian journalist and newspaper publisher Laszio Biro, but the first patent for this type of writing instrument was granted 50 years earlier. In 1888, John J. Loud presented a roller pen to the world, but his invention did not gain recognition in the eyes of his contemporaries and only half a century later, perfected by Biro, it became obvious choice for writing.

Touch pen

Friend of every touch screen.

.....

No scratches

Clean screen

Precision

How does the touch screen work?

Most of the mobile devices are equipped with a capacitive touch screen. By touching the screen, a local electric capacity in the given point is changing – and this action is read by the device. This type of touch screen won't respond to cold hands, gloves or plastic stylus.

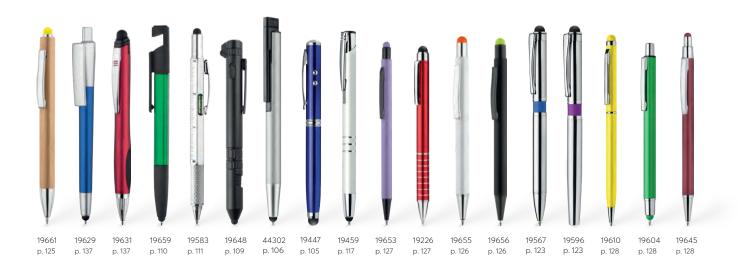

Touch Pen is a useful gadget for every mobile device owner. It makes using touch screens possible anywhere, anytime and regardless of the weather.

Use for multimedia presentations

Use in winter, while wearing gloves or in bad weather conditions

DID YOU KNOW...

Pens are not only useful for writing. Fisher Space Pen Company boasts that in 1969 the pen helped Apollo 11 succeed in its mission. During a capsule crash on the way back from the moon, astronauts used a pen instead of a broken button to return to Earth. "Buzz" Aldrin, one of the members of the Apollo crew, still holds this pen as a priceless treasure that saved his life.

Plastic pens are an effective and inexpensive way to advertise a brand or institution. The surface of the plastic allows for a very precise multi-colour printing and makes the logo or inscription look exceptionally attractive. This useful gadget can be found in our collection in many varieties and in a wide range of colours. Transparent, matt, with logo on the clip or body - there's plenty to choose from.

Always fashionable.

3 reasons why it's good to have a paper notebook

- note your thoughts and observations without distracting yourself with electronic devices
- handwritten notes give better results and allow better remembering of information
- a paper notebook will not run out of battery power or break down when you drop it on the ground

Two USB ports, enables the use of European, American, British and Australian standard power sockets.

Travel adapter WELT 51x 77 x 39 mm plastic pad printing N2, direct UV printing UV2, doming D2

DID YOU KNOW...

When traveling around the world, you can find as many as 14 different types of electrical sockets. The types of sockets have been defined by the International Electrotechnical Commission, using the letter names from A to N. Most European Union countries use one of the most popular sockets in the world: type C sockets. However, it is worth checking the situation in a given country and taking the adapter with you before going on a trip.

DID YOU KNOW...

Although it is impossible to say for certain when the first hammock was created, many anthropologists believe it comes from South America and was invented more than 1,000 years ago. Hanging beds came to Europe in 1492 with Christopher Columbus. Initially, hammocks were not used for recreation but provided protection from animals and insects which travelled on the ground at night.

HAMMOCK PACKED IN ATTACHED CASE. 2 CARABINERS AND LINES INCLUDED.

MADE *of* **PAPER**

It is not the best idea to wash paper. Surely, you know that. But what you probably do not know is that our paper bags are not afraid of getting wet. With synthetic latex impregnation, the cellulose that is used to manufacture them does not lose its properties even after laundering. The material which our bags and backpacks are sewn of is often referred to as leather for vegans because its production does not require the use of any ingredients of animal origin.

infoGRAPHIC

Umbrellas

Good for every season

Polyester Pongee, superman among fabrics

Features:

- high strength due to the use of fine threads, abrasion and fading resistance
- resistant to shrinkage and stretching, waterresistant and fast-drying
- easy to print, irrespective of the printing technique,
- recyclable

This type of umbrella can bend without damaging ribs or mechanism.

Windproof umbrella

Thanks to the reinforced construction the canopy is more flexible and resists even a strong wind.
