RUSSELL TEAMWEAR

Over 115 years of tradition – Russell is a team player in the imprint industry.

The rules of success and of togetherness are changing: our society and our professional environment are shaped by change, diversity and complexity.

Every individual wants safety, sovereignty and acceptance. Together with our partners and customers, we are constantly adapting to these changes: we are team players and aim to integrate their requirements in our solutions.

The products and services that emerge from this attitude help every individual to be a part of society or part of a company – self-sufficient and successful – for the good of both individual and corporate identity. Innovation, creativity, quality and outstanding product expertise are our driving force.

For our partners and customers, this means consistency in the product, reliability in our partnership and long-term success.

We bring people together in their individuality – for a better us.

ETHICS & COMPLIANCE

We are taking responsibility.

That's why we only work with suppliers that strive to protect the environment and its natural resources. As a team, we want to minimise our ecological footprint, which is why we use responsibly manufactured products, day in, day out – for a better world.

Fairness, loyalty and appreciation are our utmost priority.

OEKO-TEX

Our entire Russell collection complies with the Oeko-Tex® Standard 100, which verifies that no illegal or harmful substances are used in the production of any of our garments.

WRAP - WORLDWIDE RESPONSIBLE ACCREDITED PRODUCTION

Most of our production facilities are independently certified by WRAP, the world's responsible production accreditors, for adherence to international ethical standards.

AMFORI BSCI

Member of amfori, the leading global business association for open and sustainable trade. We participate in amfori BSCI. All of our production facilities are independently certified to the amfori BSCI standard to ensure they meet our compliance standards.

For more information visit www.amfori.org

GOTS – GLOBAL ORGANIC TEXTILE STANDARD

The Global Organic Textile Standard (GOTS) is recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental criteria along the entire organic textiles supply chain and requires compliance with social criteria as well. The Russell brand is GOTS certified and fulfils all legal obligations of the Global Organic Textile Standard (GOTS). The certification only applies to products which are labelled and/or marked with the GOTS logo. If a certified product is not treated or decorated in compliance with GOTS guidelines, the logo and all reference to GOTS must be removed.

All catalogue details are correct at time of going to print.

WHY RUSSELL SHIRTS & BLOUSES?

Shirts and blouses from Russell are known for their excellent fit.

That's why it was important to us that men and women can both choose from short and long sleeve styles to fit them individually.

We were the first manufacturer in the imprint industry that deviated from standard unisex models.

Today, we still want to offer you the best possible selection: our range includes all common weaves, materials and fits.

Shirts and blouses from Russell lend themselves perfectly to the look of your company – premium quality for optimal performance!

FITS

CLASSIC

A traditional shaped shirt for a relaxed fit.

TAILORED

A semi-fitted shirt for a more contemporary look.

FITTED

A slim fit for a stylish and fashionable appearance.

option to wear cuff links.

COLLARS

KENT

Perfect for business, this classic collar is named after the Duke of Kent.

NEW KENT

Not as wide-flared as the Cutaway or as sharp-cut as the Kent collar, this modern style is stiffened, boned and suitable for embroidery.

BUTTON DOWN

The modern sporty buttoned-down collar gives a smart appearance without a tie.

UNDER BUTTON DOWN

This type of collar is ideal for wearing without a tie and with an open collar button.

LADIES

Our Ladies' Shirts feature a classic collar distinguished in style by its length and shape.

POPLIN

925F

Shirts and blouses made of poplin have a very elegant look thanks to the subtle sheen on the surface. Fine yarns give the high-quality fabric a soft, supple feel. The fabric makes the tops extremely breathable. It will ensure you feel great in your clothes despite a long day at work.

Poplin is nice and lightweight, which makes it perfect for any time of year. What's more, the fabric features a plain weave structure and is robust and durable.

Oxford fabric, which features a variation of the plain weave, stands out thanks to its durability and soft texture. The firm, densely woven material is a great choice for colder weather. The coarse surface makes clothing in this material resistant to dirt and wear.

Combining dyed and undyed yarns gives the Oxford fabric a characteristic two-tone textured appearance. At Russell, you can also get plain-coloured Oxford designs.

Oxford weave is a core fabric in the fashion world. Ideal for any corporate team, our Oxford range allows everyone to look their best, while presenting a smart and consistent team appearance. Oxford incorporates a thicker yarn and a thinner yarn to create a distinctive, textured finish. The distinctive weave structure creates an extremely durable fabric that not only looks the part, but also washes and irons beautifully.

Shirts and blouses made of twill are perfect for demanding days on the job. These business classics are crease resistant and very easy to care for. The material is very robust and also boasts a subtle sheen. Alongside its diagonal texture, twill weave fabric is also characterised by its soft, supple feel.

Micro twill is a more lightweight alternative to classic twill fabrics and is made using finer yarns and with a higher yarn count.

HERRINGBONE

The popular herringbone fabric, a variation of twill, can be identified by its vibrant surface with a characteristic zigzag pattern. To achieve this, the high-quality yarn is made to change direction at regular intervals, creating the unique texture.

At Russell, we use a very dense weave. This ensures that the shirts and blouses are opaque, durable and warm. The quick-drying herringbone fabric is very easy to care for, making it the perfect choice for your modern work look.

ULTIMATE COTTON POLO
577

When only 100% cotton will do, our 577 Ultimate Cotton Polo is the natural choice. Our fabric is pre-washed so it will hold its size and shape for longer – making it extremely well suited to team wear. We use finer, thinner yarns along with the double-tuck pattern to create an exceptionally stable fabric with a very dense knit. The result is a softer hand-feel and a finer surface that's ideal for more detailed embroidery.

- Classic Fit
- Contemporary cut
- Fine honeycomb pique structure
- Reinforced shoulder seams with herringbone neck tape
- Side vents with internal herringbone taping for added stability and better fit
- Sleeves with twin needle hem (577F)
- Classic style flat knit cuffs (577M)
- Pre-shrunk and suitable for wash up to 60°C

WHY RUSSELL SWEATSHIRTS?

Who can offer you better sweatshirts than the people who invented them?

We knew all the way back in the early 1920s how important comfort and durability are for this classic.

Since then, we have continuously improved on our design and perfected our quality standards.

You can choose between elegant, heavy materials or loose, relaxed styles. Every Russell sweatshirt is comfortable to wear and a pleasure when it comes to printing and finishing.

Our Pure Organic Sweatshirts are new in the range – feel good and look great in premium 100% organic cotton fabric.

ADVANTAGES FOR COMPANIES & TEAMS

- 100% cotton surface for optimal print results (Authentic Collection)
- 100% organic cotton, various cotton blends
- Sizes from children's 90, adults from XS to 4XL
- Fitted or classic fit, workwear cut, with a feminine cut for women, modern fit for children
- High quality standards, excellent finish, great for promotions and company or team uniforms
- Easy care, suitable for tumble drying, often washable up to 60 °C, robust, low shrinkage values

YOUR ADVANTAGES

ADVANTAGES FOR DECORATORS

Label free design (Russell Pure Organic, HD Collection, Authentic melange sweatshirt fabrics)

WHY RUSSELL JACKETS?

Russell was one of the first brands in the imprint industry to produce softshell jackets.

After our bestselling 140 model, we developed the 410 Bionic Softshell, which immediately caught the eye of our customers thanks to its modern design, outstanding quality and environmentally friendly technology.

We also have the right jackets for you in cold weather.

The new Insulated Jackets boast a modern design and environmentally friendly features, such as the sustainable Dupont™ Sorona® padding, which consists of 37% plant-based raw materials.

ADVANTAGES FOR COMPANIES & TEAMS

- Various materials, fabric types and weights
- Fitted or classic fit, workwear cut, with a feminine cut for women, modern fit for children

Three layers for
protection & warmth

SOFTSHELL JACKET & GILET
140 · 141

Our outdoor Softshell jackets are built in three layers. The outer layer is a smooth, woven Softshell fabric that gives protection from the elements and is great for decoration. Next to the skin there's a cosy microfleece layer for comfort and warmth. In between is the internal layer where the real high-tech stuff happens. It's a membrane that lets moisture out but no rain in, for protection and comfort.

- Three layers softshell material
- Side pockets and chest pocket with inner lining, inside-out zippers and cord pulls
- Full zip with inner storm flap and zip neck protector at collar
- Drop tail
- Bungee cord in hem
- Adjustable cuffs

SIZE GUIDE

All of our measurements are based on actual “to fit” body sizes rather than the size of the garment itself. For example, a polo shirt with a chest to fit size of 92-97cm / 36-38” will fit someone with this chest measurement; trousers with a waist to fit 50 Europe / 34”, will fit a person with this measurement.

HERE ARE SOME TIPS TO HELP YOU CHOOSE THE MOST APPROPRIATE GARMENT SIZE(S):

1

CHEST

Men: Measure around the fullest part of the chest, 2.5cm below the underarm.

Women: Measure around the fullest part of the bust.

2

WAIST

All: Measure around the natural waist, keeping the measuring tape taut.

3

COLLAR

Men: Measure around the base of the neck.

4

HEIGHT

Children: Standing still with feet together and flat on the floor, measure from the top of the head to the ground.

5

LEG LENGTH

All: Measure from the top of the inside leg at the crotch down to where the trousers are normally worn with shoes.

FEATURES & FUNCTIONS

BREATHABLE

A material's breathability is measured in terms of how many grams of water vapour pass through a square meter of fabric over 24 hours (g/m2/24h). The higher the value, the more breathable the product.

WATERPROOF

The water column test indicates how many millimetres of water a fabric can withstand before the pressure causes it to leak. Measurements above 1,500 mm are considered waterproof.

EASY CARE

A special finish ensures that the shirts and blouses are easier and quicker to iron.

LYCRA®

Lycra® is a brand name from the company Invista. It is an extremely stretchy elastane fibre with outstanding rebound properties. These textiles promise an improved fit and comfort to match.

LYCRA® T400®

This elastomultiester (LYCRA® T400®) is a modern double fibre material that can be stretched in all directions and then bounces back to its original shape. The high-quality material adapts to the movements of the wearer and always retains its shape.

TEFLON® (DUPONT™)

Teflon® coatings ensure that fabrics are resistant to water, oil and dirt. What's more, this does not have any negative impact on the weight, look, colour or breathability.

SPOT SHIELD™

Fabrics with a SpotShield™ finish are resistant to water and dirt. They even repel most oils without difficulty.

COOLMAX®

COOLMAX® features outstanding moisture-regulating properties. This innovative, breathable polyester fibre wicks away moisture extremely quickly through capillary action and keeps the body drier longer.

BIONIC-FINISH® ECO

The fluorine- and PFC-free finish prevents water and dirt from sticking to the material.

AQUAPEL™ BY NANOTEX®

Developed in order to offer reliable protection against wind and water, Aquapel™ is still breathable and at the same time features environmentally friendly fluorine- and PFC-free technology.

DUPONT™ SORONA®

The sustainable insulation with renewable plant-based materials is made with reduced energy consumption and 50% less greenhouse gas emissions.

FLUOR- AND PFC-FREE

Fluorine- and PFC-free materials are more degradable, for the good of both us and the environment.

COLOUR PALETTE

Whether you are choosing formal shirts for corporate staff, or eye-catching sweats and polos for promotional teams, choosing the right colour is important. Russell offers a wide choice of colours across our garment collections.

Here are corresponding Pantone® references to help you select the colour that's right for you, however exact matches will vary due to the fabric type, dyeing processes and variations in printing. As such these colours should not be treated a 100% representative of actual garment colours. Please contact your sales representative for more colour details.
